

REACH STATEMENT

03-02-2018

To Whom It May Concern:

REACH is a European Community Regulation on chemicals and their safe use (EC 1907/2006). It stands for the Registration, Evaluation, Authorization and Restriction of Chemical substances. It is the strictest law to date regulating chemical substances and will impact industries throughout the world. REACH was effective in June 2007, with a phased implementation over the next decade and reviewed annually.

STAR plastic's continues to abide by those regulations of the European community and STAR Plastics, Inc. formulas are in compliance with REACH guidelines currently in place. When REACH is fully in force, it will require all companies manufacturing or importing chemical substances into the European Union in quantities of one ton or more per year to register these substances with a new European Chemicals Agency (ECA) in Helsinki, Finland.

Thank you and please call your local STAR Plastics account manager with questions.

Best Regards,
