

PA6-0030G Black

Access Date: 7/30/2025

MSDS No. NYLON

Page 1

### Section 1: Identification

Product Identifier: Nylon 6

Chemical Formula: Polycaprolactam

General Product Use: May be used to produce molded or extruded articles or as a

component of other industrial products.

Manufacturer: Star Plastics, LLC

326 Jack Burlingame Drive

Millwood, West Virginia 25262, USA

StarPlastics.com

Phone: 304.273.0352 (24 Hours)

Fax: 304.273.0355

Emergency telephone number: 304.273.5326 (24 hours)

# Section 2: Hazard(s) Identification

Classifications: Use Appendices to 1910.1200 to determine Hazard

Classification.

**Pictograms:** 

 $\Diamond$ 

Signal Word: Warning

**Hazard Statements:** May cause respiratory irritation.

Other Hazards not Otherwise Classified: Pellet inhalation unlikely due to physical form.

# Section 3: Composition / Information on Ingredients

**Chemical/Component Name** 

**CAS Number** 

Weight %

Polycaprolactam Aluminum borosilicate glass 25038-54-4 65997-17-3

# PA6-0030G Black

Access Date: 7/30/2025

### Section 4: First-Aid Measures

Inhalation: Fume inhalation: Leave contaminated area and breathe fresh air. If

coughing, difficult breathing or any other symptoms develop seek medical attention at once, even if symptoms develop at a later time.

Eye Contact: Flush immediately with large amounts of water for at least 15 minutes. If

irritation persists, call medical support.

**Skin Contact:** For skin contact with fume condensate, immediately wash thoroughly

with soap and water. If irritation develops seek medical attention.

For molten plastic skin contact, cool rapidly with water and immediately seek medical attention. Do not attempt removal of plastic without

medical assistance. Do not use solvent for removal.

**Ingestion:** Not probable.

**Most important** Fum **symptoms/effects:** heal

Fumes produced during melt process of plastics may produce acute health effects in some individuals, especially irritation of eyes/nose and

throat in cases of severe overexposure, nausea and headaches.

Indication of immediate medical treatment:

Molten plastic can cause severe thermal burns. Fumes produced during

melt processing may cause eye, skin and respiratory tract irritation.

# Section 5: Fire-Fighting Measures

Suitable (and unsuitable) Extinguishing Media:

Water spray and foam. Water is the best extinguishing medium. Carbon dioxide and dry chemical are not generally recommended

because their lack of cooling capacity may permit re-ignition.

Specific Hazards arising from the chemical:

Hazardous combustion products may include intense heat, dense black smoke, carbon monoxide, carbon dioxide and hydrocarbon fragments.

Special protective equipment and precautions for fire-fighters:

Wear NIOSH/MSHA approved SCBA and full protective equipment.

The fuel content and temperatures will require immediate attention and vigorous efforts to bring about control of the fire, and suppression of the fire should begin immediately. The plastic will melt, but it will not be carried on the surface of the water, and water can be freely used to control the fire. Use a water spray to cool fire-exposed containers, and to solidify. Do not release runoff from fire control methods to sewers or waterways.

# PA6-0030G Black

Access Date: 7/30/2025

### Section 6: Accidental Release Measures

Personal

Precautions/protective equipment/emergency procedures:

Methods/materials for containment & clean-up:

Pellets: Remove from all floor areas to allow for stable footing and

preventing slips by personnel.

Soil: Collect for re-use or appropriate disposal. Solids can be

separated.

Water: Notification of government agency may be appropriate.

Air: Not likely to be released.

## Section 7: Handling and Storage

Precautions for Safe Secondary operations such as grinding, sanding or sawing may produce

Handling: a dust explosion hazard. Use aggressive housekeeping activities to

prevent dust accumulation; employ bonding, grounding, venting and explosion relief provisions in accordance with accepted engineering

practices.

Conditions for Safe Avoid storing containers near foodstuffs due to possibility of odor and

**Storage:** taste contamination of food.

Do not store containers near heating devices, hot pipes, etc.

Store in a dry place away from moisture, excessive heat and sources of

ignition.

Read and become familiar with all labels and instructions of packaging.

# Section 8: Exposure Controls/Personal Protection

#### OSHA PEL/ACGIH/TLV:

OSHA PEL (TWA) STEL Ceiling

for codes containing high black

content ....

Carbon Black 3.5 mg/m<sup>3</sup>

for codes containing high white

content ....

Titanium Dioxide 15 mg/m<sup>3</sup>

**Appropriate** Recommended, sufficient ventilation to control fumes.

# PA6-0030G Black

Access Date: 7/30/2025

**Engineering Controls: Individual Protection** Measures:

**Respiratory Protection:** Under conditions of excessive fume concentration, a NIOSH/MSHA

> approved device with organic vapor acid gas rating or fresh air supply should be used. Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and,

if necessary, wear a MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne

contamination, and presence of sufficient oxygen. For emergency or nonroutine operations (cleaning spills, reactor vessels, or storage tanks), wear an SCBA. Warning! Air-purifying respirators do not protect workers in oxygen-deficient atmospheres. If respirators are used, OSHA requires a written respiratory protection program that includes at least: medical certification, training, fit-testing, periodic environmental monitoring, maintenance, inspection, cleaning, and

convenient, sanitary storage areas.

Wear gloves that will prohibit penetration when handling hot plastic. **Hand Protection:** 

ANSI approved safety glasses or chemical workers goggles. **Eve Protection:** 

Other Protective Ordinary work clothes.

**Equipment:** 

Work Hygienic Wash hands with soap and water before eating or smoking and at the

end of each work day. Practices:

## Section 9: Physical and Chemical Properties

Appearance Solid, plastic pellet **Explosive Limits:** Unknown

(physical state, color,

etc.):

Odor: Slight Vapor Pressure: Negligible

Odor Threshold: N/A Vapor Density: Unknown Unknown

**Relative Density:** N/A pH: Solubility: This product does not exhibit a Insoluble

Freezing/Melting

point: sharp melting point, but softens

gradually over a wide temperature range.

**Boiling Point/Range:** N/A Other Solubility: Unknown

Flash Point: Unknown **Partition Coefficient:** Unknown Auto-Ignition Temp: 630C (1166F), **Evaporation Rate:** N/A estimated

Flammability (solid, N/A **Decomposition Temp:** Unknown

gas):

Page 5

Viscosity: N/A UEL/LEL: Unknown

### Section 10: Stability and Reactivity

Reactivity: Not reactive under recommended conditions of handling, storage,

processing and use.

**Chemical Stability:** Stable under recommended conditions of storage and handling.

Possibility of Hazardous None

Reactions:

Conditions to Avoid: Do not exceed melt temperature recommendations in product

literature. In order to avoid autoignition/hazardous decomposition of hot thick masses of plastic, purgings should be collected in small, flat shapes or thin strands to allow for rapid cooling and

quench in water.

Incompatible Materials:

Hazardous Decomposition Processing fumes evolved at recommended processing conditions

of Products: may include trace levels of carbon dioxide, water, amines,

hydrocarbons, ammonia and carbon monoxide.

### Section 11: Toxicological Information

Information on toxicological effects

Routes of Exposure: Inhalation, skin, ingestion

**Eye:** Product may cause irritation or injury due to mechanical action.

**Skin Contact:** Pellets not likely to cause skin irritation.

Molten plastic can cause severe thermal burns.

**Ingestion:** Not acutely toxic.

**Inhalation:** Pellet inhalation unlikely due to physical form.

Symptoms: Fumes produced during melt processing may cause eye, skin and

respiratory tract irritation.

**Delayed & Immediate** Acute Effects: Fumes produced during melt process of plastics may

**Effects:** produce acute health effects in some individuals, especially irritation of eyes/nose and throat in cases of severe overexposure, nausea and

eyes/nose and throat in cases of severe overexposure, nausea and headaches. Fumes emitted from hot plastic during conversion may

condense on cool overhead metal surfaces/structures.

Chronic Effects: No known

**Numerical Measures of** 

Toxicity:

Carcinogenicity: OSHA, IARC and NTP have listed carbon black as carcinogen. Titanium

# PA6-0030G Black

Access Date: 7/30/2025

Dioxide has been identified as a suspected or confirmed human carcinogen. OSHA, IARC and/or NTP have listed heavy metals, present in some colorants as carcinogens. These colorants are essentially bound to the plastic matrix and are unlikely to contribute to workplace exposure under recommended processing conditions.

# Section 12: Ecological Information (non-mandatory)

**Ecotoxicity:** N/A

Persistence and degradability: N/A Bioaccumulation potential: N/A

Mobility in soil: N/A

Other adverse effects: N/A

## Section 13: Disposal Considerations (non-mandatory)

Description of waste residues and information on their safe handling and methods of disposal, including the disposal of any contaminated packaging.

Landfill waste plastic if codes permit/incinerate if codes and equipment permit. Incinerating equipment should be capable of handling large volumes of dense, black smoke and withstand effects of acid gases. Pellet materials not considered hazardous waste.

# Section 14: Transport Information (non-mandatory)

**UN Number** N/A

**UN Proper Shipping Name** N/A

Transport Hazard Class(es) N/A

Packing Group, if applicable N/A

Environmental hazards (eg, Marine pollutant) N/A

Transport in Bulk (according to Annex II of MARPOL 73/78 and N/A

the IBC Code)

Special Precautions which a user needs to be aware of, or N/A needs to comply with, in connection with transport of conveyance either within or outside their premises.

**DOT Transportation Data:** 49 CFR 172.101

#### PA6-0030G Black

Access Date: 7/30/2025

# Section 15: Regulatory Information (non-mandatory)

Safety, Health and Environmental Regulations specific for the product in question.

#### **EPA Regulations:**

RCRA Hazardous Waste Number: Not listed (40 CFR 261.33)

RCRA Hazardous Waste Classification (40 CFR 261.??): Not classified

CERCLA Hazardous Substance (40 CFR 302.4) Unlisted specific per RCRA, Sec. 3001; CWA, Sec. 311

(b)(4); CWA, Sec. 307(a), CAA, Sec. 112

SARA Toxic Chemical (40 CFR 372.65): Not listed

SARA EHS (Extremely Hazardous Substance) (40 CFR 355): Not listed, Threshold Planning Quantity (TPQ)

#### **OSHA Regulations:**

Air Contaminant (29 CFR 1910.1000, Table Z-1, Z-1-A): Not listed

OSHA Specifically Regulated Substance: Not listed.

TSCA: Listed

#### State Regulations:
